

SCALETEC PLUS® Product Overview:

Scaletec Plus® synertec™ formula utilizes the newest technologies of high performance polymers and advanced descalers to create the strongest scale, stain, and scum remover ever. Pool owners now have a more effective way to cleanup scaled and stained surfaces, tile, and equipment without acids and scrubbing. Scaletec Plus® allows pools to be safely descaled without the high cost of mechanical tile cleaning and / or surface acid washing. Scaletec Plus® powerful acid-free, low phosphorous formula is very chlorine stable and requires no testing. Irons stains are also quickly removed from surfaces. Scaletec Plus® is excellent for monthly cleanup or use Beautec® super-sequestrant for total scale - stain control including hard silica deposits.

Use 1 oz. per 1,000 Gals. per Month to Cleanup

- Quickly removes white calcium scale*, mineral deposits, and stains on pool surfaces, tile, and equipment (including filter, heater, piping, and solar).
- Performs pool surface descaling and tile cleanup *without damage*.
- Removes iron stains aggressively. Also prevents stains due to iron, copper and manganese metals with small monthly application.
- See visible descaling results within 4 weeks ... old, harder scale buildup typically requires 3 to 6 months to remove.
- Safe for all types of pool surfaces and tile (including pebble types).
- No waiting! Swim immediately after treatment.

* Note: will not remove hard greyish-white silica deposits

Super Concentrated for All Types of Swimming Pools

SCALETEC®

P L U S

Pool Surface - Tile Descaler and Stain Remover

- ✦ Descales Pool Surfaces & Tile Without Acid Washing, Draining, or Scrubbing!
- ✦ Removes Calcium-Lime Scales, Scum Buildup, Iron and Other Stains.
- ✦ Prevents New Calcium Deposits and All Metal Stains: (iron, copper, & manganese).

The Easiest Way To Keep Pool Surfaces Clean

64 FL. OZ. (1/2 Gallon) 1.89 LITERS

Made In U.S.A.

SCALETEC PLUS® TREATMENT CHART:

POOL SIZE (in U.S. GALS.)	PREVENTION & REMOVAL		STAIN REMOVAL & WINTER LAYUP
	MONTHLY	DESCALING*	
10,000	10 OUNCES	32-64 OUNCES	32 OUNCES
20,000	20 OUNCES	64 -128 OUNCES	64 OUNCES
100,000	1 GALLON	2 - 4 GALLONS	2 GALLONS

* Salt chlorinator systems should use higher dosage for best results.

DESCALING with SCALETEC PLUS® Easy steps to success!

1. Perform "spot check" to determine if deposit is primarily calcium based. Pour a capful of pool acid slowly over affected area. Active bubbling or foaming typifies newer calcium type scale and minimal reaction indicates harder, older scale. For these type of scales, additional product and time is usually required.
2. Add Scaletec Plus® according to chart. Double dosage for faster cleanup.
3. Reduce chlorine levels below 2 ppm and avoid chlorine shocking.
4. Raise and maintain water level above scale line during entire cleaning period.
5. Operate pool pump daily 8 to 12 hours to improve descaling activity.
6. After descaling period, immediately lower water to normal level.

Cleanup Tips:

- a) Salt chlorinators: lower chlorine level and use a non-metallic algaeicide such as Pooltec® during cleanup period to keep water clear.
- b) If descaling in summer, add additional dosage in 2 weeks.
- c) Older scale removal requires monthly treatment for at least 4 to 6 months.

IRON and METAL STAIN REMOVAL and PREVENTION:

To remove iron and other stains, add Scaletec Plus® directly to pool water. Operate pool pump's normal daily cycle. Minimize pool shocking. Brushing may aid in faster stain removal. Stain removal requires several days to one week or longer.

SCALE / SCUM PREVENTION and WINTER LAYUP:

For continuous cleaning and scale -stain prevention, add monthly maintenance dosage directly to pool water. For winter prevention of scale and stains, use the Scaletec Plus® winter layup dosage for your size pool.

PRECAUTIONARY STATEMENTS:

CAUTION: May be harmful if swallowed as a concentrate. Avoid prolonged direct contact with skin, eyes and clothing.

FIRST AID: EYES: Immediately wash with cool water until thoroughly rinsed. **SKIN:** Rinse with water to remove all residue. Seek medical attention if necessary. **IF SWALLOWED:** Drink two glasses of water and contact a physician for guidance.

STORAGE & HANDLING: Keep container closed when not in use. Spills may be slippery. Mop up product with clean water. Do not blend directly with other pool chemicals.

DISPOSAL: Rinse container. Dispose in trash or recycle.
